FOR IMMEDIATE RELEASE:

JOHNSON SYSTEMS INC. RELEASES PRESIDOR™ ARCHITECTURAL WALL STATIONS

CALGARY, ALBERTA, March 9, 2021 – Johnson Systems Inc., an Architainment lighting control company, announced today that it has expanded its lineup of Presidor™ Walls Stations (PWS) with release of the 20 Preset RETRO version.

Leveraging on the success of the 70 Preset DMX version introduced last year, this new 20 Preset PWS will operate on virtually any existing building wiring including analog and only requires 3 conductors total.

“This will permit digital upgrades with full color capacitive touch operation in virtually any existing facility with minimal downtime and cost. This capability is unique to Presidor™”, says founder and CEO Shaun Johnson.

More information and instructional videos on Presidor™ Wall Stations can be found online at johnsonsystems.com.

ABOUT JOHNSON SYSTEMS INC. (JSI):

For over 30 years, Johnson Systems Inc. has provided state-of-the-art retrofit lighting solutions to museums, auditoriums, theatres, conference centers, theme parks and more.
